Education

KTH Royal Institute of Technology, Stockholm, Sweden — Aug 2020 – Jan 2026
Degree Programme in Engineering Physics, MSc in Applied Mathematics for Data Science

École Polytechnique (l'X), Palaiseau, France — Sep 2023 – Aug 2024
Third Year of Cycle Ingénieur – Track in Applied Mathematics

Kungsholmens Gymnasium, Stockholm, Sweden — Aug 2016 – Jun 2019
Natural Sciences Program. Participated in Young Entrepreneurship Program.

Experience

Ericsson, Stockholm — Jan 2025 – Present
Fullstack AI Researcher — Sep 2025 – Present

- Building dataset, training and evaluation pipelines for a proprietary large language model at Ericsson. From continued pre-training to RL.

Thesis Worker – System Comprehension Lab — Jan 2025 – Sep 2025

- Master's thesis on vocabulary expansion of LLMs. Developed own method and pipeline for self-distillation.

Publicis Re:Sources, Paris — Apr 2024 – Aug 2024
Intern/Stagiaire – AI/ML

- Developed preprocessing methods and a training pipeline for precise placement of artifacts in images generated by latent diffusion models.

Candela Technology, Stockholm — Jun 2022 – Aug 2022
Summer Intern

Swedbank, Stockholm — May 2021 – Dec 2022
Client Advisor

Lidingö Jolleseglare, Stockholm — Aug 2020 – Apr 2021
Catamaran Coach

Swedish Armed Forces, K3 Hussar Regiment — Aug 2019 – Jun 2020
Jägarsoldat – Reconnaissance & Infiltration Specialist

KSSS – Royal Swedish Yacht Club — Summers 2016 – 2020
Instructor at Summer Sailing Camps; responsible for the competitive racing group

Publications, Featurings & Awards

Tokenmaxxing!, *Featured in NYT on the topic of maximizing use of AI* — 2026

Vocabulary Expansion of LLMs via KL-Based Self-Distillation, — 2025
Ericsson / KTH Master's Thesis

Controllable Clothing: Precise Labels and Generation, *Publicis/l'X Report* — 2024

Founders House Fintech+AI Hackathon (sponsored by OpenAI, EQT & Stripe) – — 2025
Winner of category: Most Likely to Become a Unicorn

Marseilléstiftelsens Stipend, awarded by Tessinsällskapet — 2023

Silver Medal – Swedish Championship, F18 Catamaran Class Sail Boat — 2020

Skills

Training & Inference: PyTorch, FSDP, DeepSpeed, TRL, PEFT, vLLM, SGLang

Infrastructure: Slurm, Kubernetes, Docker, AWS, Azure, sandboxing, MCP servers

Languages: Swedish (native), English (fluent), French (fluent)
